

Loans for Small Business Equipment

The Mountain Association is a nonprofit that serves businesses and organizations based in Appalachian Kentucky.

Flexible Financing

Looking to start or grow your small business? We offer loans for buying equipment! Our loans range from \$1,000 to over \$1 million. With interest rates between 5-7.75%, we also provide free expert business advice on whatever you need help with.

We are a nonprofit—not a bank, so our business loans are more flexible. Even if you have a low credit score, you might still qualify because we focus on vision, passion, and community impact - not just credit history.

Partnering with Vocational Rehabilitation

We will work with you and your representative at Vocational Rehab to answer any questions you have about how our financing can work with your benefits.

We are happy to make any accommodation to better serve you.
